

Tyler Quackenbush

Senior UX Designer · Product Strategy, AI-Native Practice

Dahlonega, GA · tyler.qbush@gmail.com · (678) 451-4471 · linkedin.com/in/tyler-qbush · 100% Remote

PROFESSIONAL SUMMARY

Senior UX designer with 8+ years shaping product, design, and AI-adoption strategy across federal, defense, and higher-education platforms. Currently project manager for Agile Defense University, a company-wide AI-native initiative reaching 1,500 employees, and PM for a 4-person design team, and a contributor to four concept-prototype dashboards for federal agencies built through rapid discovery sprints used to win new engagements. Comfortable owning a decision from Figma through delivery, whether that's a workshop template, a training curriculum, or a product interface.

CORE COMPETENCIES

Product Strategy & Decision-Making · AI Adoption Strategy & Curriculum Development · Project & Program Management · Information Architecture · Rapid Concept Prototyping · UX Writing & Content Design · Accessibility (WCAG / Section 508) · Agile/Scrum Delivery · Figma & Mural Prototyping

PROFESSIONAL EXPERIENCE

Senior UX Designer | Agile Defense (formerly Intellibridge)

2021 – Present

Move between hands-on design, project management, and AI-program leadership across federal and commercial digital platforms.

- Project manager for Agile Defense University (ADU), a company-wide AI-native initiative reaching 1,500 employees; work with the team to draft storyboards, write and validate scripts, and produce training that gives every employee a clear, actionable path for career advancement.
- Manage Experience Studio, a 4-person design team, tracking active initiatives and reporting status to leadership on request.
- Contributed to four concept-prototype dashboards for federal clients (defense readiness, law enforcement HR, municipal infrastructure, compliance tracking) through the company's Discovery process, rapid prototyping used to win and expand federal engagements.
- Co-led the Labs project management office for 6 months during a post-acquisition reorganization: triaged incoming work, assigned tasks to designers with open capacity, and managed delivery.
- Built Fast Play, a template-and-AI-agent workshop system that grew out of the company's methods wiki, letting any employee run a workshop without deep facilitation experience.
- UX designer on USDA BPA projects, including a national tree website and the 2022 National Archives 1950 Census release site.

Web Designer | University of North Georgia

2016 – 2021

Led web content design and information architecture for a public university digital presence serving 20,000+ users.

- Led a site-wide redesign, including content restructuring, navigation simplification, and information architecture, increasing user engagement by 35%.
- Helped audit and consolidate 20+ site navigation menus into one structure, weighing what content to retain, consolidate, or remove to reduce redundancy and user friction.
- Contributed to content templates, landing pages, and iconography that improved content scannability and accessibility.

EDUCATION

Bachelor of Arts, English Literature — University of North Georgia

CERTIFICATIONS & CONTINUING EDUCATION

Certified ScrumMaster (CSM) · SAFe for Teams Certified (Scaled Agile) · UX/UI Design for Gaming — ELVTR

Interaction Design Foundation: User Research Methods, Human-Computer Interaction, Web Design for Usability, UI Design Patterns, Affordances in UI Design, Gestalt Psychology in Web Design
