

Tyler Quackenbush

UX/UI Designer · Dahlenega, GA · tyler.qbush@gmail.com · (678) 451-4471 · linkedin.com/in/tyler-qbush

SUMMARY

UX/UI Designer with 8+ years across product design, content design, and design systems work, spanning healthcare, federal, nonprofit, and startup clients. Combines hands-on Figma design and prototyping with content strategy and information architecture, and brings a modern, AI-assisted workflow (Claude, ChatGPT) to research synthesis, content production, and design documentation. Track record of leading redesigns that measurably improve engagement, accessibility, and stakeholder satisfaction, and of owning a product end-to-end as a founder.

SKILLS

Figma · Webflow · Wireframing & Prototyping · Design Systems · Information Architecture · User & Usability Testing · UX Writing · Journey Mapping · Claude & AI-Assisted Workflows · Airtable · Jira · Confluence · HTML/CSS · GitHub

EXPERIENCE

Senior UX Designer / UX Program Delivery Lead

2021 – Present

Agile Defense (formerly Intellibridge) · Remote

- Led design and rollout of an internal UX intranet platform, increasing employee productivity 30% through centralized design resources.
- Designed wireframes and prototypes for web redesign projects, driving a 25% increase in engagement and 20% increase in conversion.
- Conducted user research and usability testing that cut user errors 40% and raised satisfaction 50%.
- Co-led an intake framework adopted across design and delivery teams, reducing scope ambiguity 70%.
- Delivered 40+ design initiatives with a 100% on-time record and 90% stakeholder satisfaction.

Founder / Content Lead

2023 – Present

Land to Land Holdings

- Own product, content, and design for a real estate investment company's web presence end-to-end.
- Designed and operate AI-assisted content systems that draft SEO-optimized listings and marketing content under a structured human-review model.
- Built and maintain a structured-data-driven website with pages generated from a live content database.

UX Content Designer

2022

Novant Health (via Accrue Partners) · Remote

- Produced 50+ high-fidelity Figma prototypes weekly for a system-wide healthcare website redesign.
- Cut per-page production time to under 10 minutes via Figma auto-layout systems.
- Streamlined the image migration process, reducing asset search time 75%.

Web Designer

2016 – 2021

University of North Georgia · Dahlenega, GA

- Led a site-wide redesign of a 5,000+ page site, increasing engagement 35%.
- Consolidated 20+ site menus and designed custom iconography for an admissions page with 1M+ annual views.
- Maintained 128 departmental sites and led rollout of a 2FA onboarding landing page for 20,000+ users.
